Search Notes

Examiner Hamud,

Here are the results of the search you requested.

Please feel free to contact me if you have any questions.

Edward Hart

Hart, Edward

Hi Mr. Hart,

Would you please search SEQ ID NOs:76 and 77 of 10/006,063 against commercial and interference data bases. Please, safe the search on a disc. Thank you.

Search and Information
Resources Administration

Pending Nucleic Acid and Pending Amino Acid database searches generate two sets of results each. The Pending databases have been split into two parts to reduce the amount of time required for their daily updates. This results in more machine time being available for processing searches.

Searches run against the Nucleic Acid Pending database produce two sets of results, with the extensions .rnpm and .rnpn

Searches run against the Amino Acid Pending database produce two sets of results, with the extensions .rapm and .rapn

Because they contain data that is confidential, the results of Pending database searches should not be left in the case .
